**Online Magazine of International Student Radio**

## Call for contributions

Students, scholars, experts, community members, teachers, DJ's and all others interested and involved in student / college radio and media.

The next issue of the online magazine of international student radio, Alternatives is published by the end of 2018. The special theme for this volume is SKILLS and CHALLENGES. What kind of skills and knowledge is needed and acquired when doing student-led, alternative or indie radio? What are the challenges the stations face across the world? How have the stations overcome the barriers?

We also accept good content outside the main theme as long as it somehow addresses the student radio realm.

Alternatives welcomes all kinds of written and visual contributions from expert articles, interviews, columns, infographics, photos and visualizations. You name it. This is a chance for you to share your insights with a global audience.

Now, read THIS (The Highly Important Stuff):

- Submit your ready material or your ideas to [alternativesmagazine@lamk.fi](mailto:alternativesmagazine@lamk.fi) (if the size of the material is over 8GB please use a file sharing service such as Google Drive, Dropbox or WeTransfer).
- If your proposal is accepted, you will get notified within a week, with some possible improvement suggestions. If not, you will get notified likewise within a week with some reasons why not.
